1) The webPDF.server is licensed on a "per socket" basis. The webPDF.server provides a license to run a server on one socket. An additional license for the webPDF.server provides a license to run the server on an additional socket. The license is perpetual, no need to pay additional yearly upgrade or maintenance fees.

2) A socket is a physical location on a computer board onto which a single processor can be mounted. A processor is a chip that contains a collection of one or more cores.
